After suffering for 6 months, and PT doing nothing. I decided I would pursue surgery... I found Dr. Lipani after much online research.

I traveled over an hour to get to his office and am sooo glad I did.

I cannot say enough about Kathleen Bonner RN, BSN Practice Administrator and Clinical Manager. Kathy got back to me right away...answered all my questions and worked with me on appt. scheduling.

Dr. Lipani is great. He sat with me for at least an hour and showed me my films. Explained any and all I needed to know. He also expedited my surgery so I would be able to enjoy the vacation I had booked the year before.

I know Kathy had to do a lot of wheeling and dealing to do that and I appreciated it all. It left me a recovery window of 6 weeks...which was PERFECT!!

My surgery went well...had 2 follow up visits with Dr. Lipani...and I feel wonderful. To be out of that god awful pain is a blessing...and I can't praise him enough.

Kathy was available 24/7...and helped me afterwards with insurance problems too!! I can't say enough :)

Sincerely,

CC
